

chatham college/physician assistant studies shadowing form

Shadowing Site Visit

A shadowing experience is recommended for applicants to the Physician Assistant Studies program. Shadowing includes contacting at least one community physician assistant, requesting the opportunity to observe him or her in their practice, and spending at least four hours observing in the clinical setting.

Complete all of the following information for each site visited. (Please print or type.) Photocopy this form as necessary for additional shadowing experiences.

Prospective student name _____

Social security number _____

Physician assistant name _____

Type of practice observed _____

Physician assistant work telephone _____

Physician assistant work address _____

Date and time of visit _____

In the space below, briefly describe your shadowing experience, with particular emphasis on the role of the physician assistant in clinical practice.
