

Chatham University

Landscape Architecture Programs

Landscape Architecture students at Chatham University have available to them an abundance of specialized literature in the department's resource room. These materials include landscape architecture magazine collections, clipped articles alphabetized by subject, books, construction materials brochures, manufacturers' catalogues, newsletters, MLA theses, course materials, student portfolios, student work, professional portfolios, slides, Sweets Distributor Catalogues, and other miscellaneous informational materials. The room contains reference books, 46+ magazine titles, 76 different material catalogue categories, and not to mention the collection is always growing. See below for more specific information on what the resource room has to offer.

Technical Bulletins & Landscape Construction Catalogues:

Category	Earthwork –
