1. IDP Leave of Absence Policy

Integrated Degree Program (IDP) students who choose to take a temporary leave of absence from their academic degree programs must receive approval from their Advisor and Graduate Program Director. If approved, they will be permitted to take up to a one calendar year leave from the date of last enrollment in their Program(s). Students must follow protocol for Withdrawal from the University. Upon return, the student may be required to meet the requirements under the catalog in effect at the time of readmission.

2. Update to Refund Policy (now referred to as Withdrawal Calculation Policy)

A Withdrawal Calculation Policy has been established for those students who process a complete Withdrawal (all classes) from the University. Adjustments are for Tuition only; nonrefundable Deposits and Fees are not adjusted or refunded. To be entitled to a withdrawal calculation, a student must give the University written notice of complete withdrawal. Non-attendance and/or non-payment of Tuition and Fees do not constitute an official withdrawal. No adjustments will be made for students who process a course withdrawal (one or more classes as opposed to all classes).

Institutional withdrawal calculations for complete withdrawals are made according to the following schedules:

For All Sessions (calculations are based on Calendar Days including weekends and holidays):

- Day 1 through Day 7 of the session is 100% refund
- Day 8 through Day 15 of the session is 50% refund
- Day 16 of the session and beyond is 0% refund

Withdrawal calculations for charges in Room and Board for students who Withdraw will be calculated based on usage and students will be charged a pro-rated amount based on housing check-in/check-out dates and meal plan usage. The dates used for this calculation are based on the Terms and Conditions of Residency contract dates and the dates students check-out and return their residence hall or apartment keys to the Office of Residence Life and stop utilizing their Chatham ID to access their residential space. Students sign the Terms and Conditions of Residency for one Academic Year (two semesters). If a student chooses to live off-campus for the second semester, they must notify the Office of Residence Life by December 1, otherwise they will be subject to either a \$300.00 Cancellation Fee or the total cost for Room and Board for the Spring semester.

After the withdrawal calculation is applied, any resulting balance is due upon Withdrawal. Any resulting Credit Balance will be refunded within 14 days. For the purpose of computing any withdrawal calculation, a student's withdrawal date is the date the student initiates the withdrawal process by filing an official Notice of Withdrawal with the Office of the University Registrar.

3. Clarifying the OTD Fast-Track Program

The OTD Fast-track program is available to certain students who complete their MOT at Chatham University. Students in the OTD Fast-track program are required to take 27 credits, compared with the normal 30 for the OTD program. Fast-track students are not required to take OTD742, since they have already completed OTH601 at Chatham.

4. Introducing the Accounting concentration for the MBA program

The Master of Business Administration (MBA) program has an additional concentration in Accounting that was not represented in the published catalog. That concentration is as follows:

Accounting Concentration

7. The BA in Food Studies (BA) was approved in 2018 for start in fall 2020 but was omitted from this catalog.

Food Studies (BAFS)

The Bachelor of Arts in Food Studies (BAFS) allows students to gain mastery of experiential liberal arts through the lens of food. Students accumulate applied agricultural and culinary knowledge, as well as round out their classroom learning through participation in our signature Food Fellows Experience—a term of cooperative learning and professional development supported by in-person and online guidance from faculty and practitioners.

Learning Outcomes

The Bachelor of Arts in Food Studies program curriculum emphasizes and instills interdisciplinary breadth, experiential learning, community building, communicative competence, and critical thinking capabilities for its students. Learning outcomes of the program include:

1. Students will employ skills from different fields to demonstrate and document contemporary and historic states of food and agriculture.
2. Students will gain basic experience in growing, producing, and cooking food and grasp the specific material competencies related to agriculture and cooking.
3. Students will demonstrate knowledge of the broad range of food studies disciplines and their contribution to our understanding of issues in food and agriculture.
4. Students will be able to use task negotiation, network development, social interaction, and cultural acumen as well as project management in working with collaborators in multiple types of community settings, from business to nonprofit to university members to grassroots groups.
5. Students will employ communication theories, concepts, applied skills, and problem solving to multiple audiences in a variety of written, oral, and demonstration- focused formats.
6. Students will apply evidence-based theory, concepts, and processes to propose creative, sustainable, and productive solutions to issues in food and agriculture.
7. Students will use analytical approaches and applied skills to food and agricultural tasks.

Minor

6 courses, 16 credits

FST150	Food, Farm & Field	3
	This course explores food, farm, and environment through readings, films, lectures, demonstrations, field trips, and on-farm and kitchen experiences in research and production problems. Activities include presentations on specific topics, group discussions, hands-on lab and field activities, individual and group presentations, field trips, and reflection through writing, video, and photography.	

FST250	International Cuisine	3
---------------	------------------------------	----------

FST315	Food Access and Policy	3
	If food is a basic human right, how do societies create universal access to food? This course explores the ethical basis for making citizens food secure despite global inequality. Major topics include private vs. public solutions and the relationship between food access, gender, cultural appropriateness, nutrition, sustainability, and justice.	
FST320	Basic Agroecology	3
	Through working on Chatham's Eden Hall Farm as well as neighboring farms, students will integrate best practices for sustainable agriculture with theory encountered in class. Topics will include basic principles of soil fertility, biodiversity, agriculture history, effects of both conventional and organic agriculture, and the politics surrounding the issues.	
FST320L	Growing Sustainably Lab	1
	Through working with Chatham's Eden Hall Farm as well as visiting neighboring farms, students will integrate best practices for sustainable agriculture with theory encountered in classes. Topics will include basic principles of soil fertility, biodiversity, greenhouse production, agriculture history, effects of both conventional and organic agriculture, and the politics surrounding the issues.	
FST 342	Sustainable Production	3
	Course explores specific modes of production, agricultural and culinary, with a focus on applied and experiential learning through practical application in a group project. Students focus on farm to kitchen and develop problem solving skills for practical applications, including plant and crop production and culinary product development.
