Online Master of **BUSINESS ADMINISTRATION**

The online MBA is a program within Chatham University's **SCHOOL OF ARTS, SCIENCE & BUSINESS**. Programs in the School of Arts, Science & Business leverage Chatham's strengths in the liberal arts, business, communications, and the arts, and complement them with professional preparation that helps students prepare for their futures and the next steps in their professional and academic careers.

PROGRAM HIGHLIGHTS

- Courses are delivered in an accelerated 7.5-week format.
- The Chatham online MBA program can be completed in two years as a full-time student, and part-time study is also available.
- The online MBA program faculty bring their real-world experience to augment students' understanding of concepts and practices, preparing students to adapt their learning to complex scenarios. Areas of expertise include law; taxation; industrial/organizational psychology; information systems; finance and administration; and more.
- The Center for Women's Entrepreneurship—Womens Business Center at Chatham University creates economic opportunities for people of all genders through entrepreneurial education and training, mentoring, and networking. Many events are open to students, and there are other ways for students to participate, too.
- For those who prefer an on-campus experience with a dedicated cohort, Chatham offers an on-campus MBA as well, as well as dual-degree programs that combine an MBA with a Master of Sustainability or Master of Arts in Food Studies.
- Chatham University has received specialized accreditation for its business programs through the International Assembly for Collegiate Business Education (IACBE).

SAMPLE COURSES

Innovation and Commercialization

This course focuses on how to successfully commercialize an innovation. Understanding commercialization activities such as pre-product launch planning, market testing, actual product launch, and post-launch follow-up is a major part of the course. The course provides a run-through of the complete cycle from idea to market entry.

Informatics in Healthcare

This course is designed to assist the student in understanding various database systems used within a healthcare setting. Key to this course is understanding how healthcare professionals can collect and extract data from database systems to assess the organization's performance and impact on patient outcomes.

Business Consulting Capstone

This course is the culminating experience in the MBA program. Students apply professional-level business consulting skills learned in the MBA program. Business Consulting Capstone student teams solve business problems for businesses and entrepreneurs.

OUTCOMES

98% of 2021 Chatham graduates were employed or pursuing further education within six months of graduation.
