Unique

- A distinctive program focused on developing leadership and management skills, and increasing career mobility for the registered nurse
- Program is taught online, with working nurses in mind
- Courses are offered in an accelerated, seven-week format
- A coeducational program, highly interactive with the opportunity to discuss topics of mutual interest with a diverse group of students
- Provides a gateway to further your nursing education
- No additional tests required for admission
- Clinical work may be coordinated with current employer and nursing faculty
- Students are prepared to work in positions requiring highly-skilled critical thinking abilities
- RNs may transfer up to 75 credits into the program. A minimum of 45 credits, including the 26 credits of core requirements, must be taken at Chatham University
- Graduates of UPMC Shadyside School of Nursing and UPMC St. Margaret’s School of Nursing have established articulation agreements with Chatham
- Fully accredited by The Commission of Collegiate Nursing Education (CCNE)
