

PROJECT PERICLES EVENTS SPRING 2015

Project Pericles is a not-for-profit organization that encourages and facilitates commitments from colleges and universities to include social responsibility and participatory citizenship as essential elements of their educational programs. Chatham University is a member of Project Pericles and the following events were chosen to highlight the programming our university offers that promotes the Project Pericles mission. During these events you will learn how to get involved in and influence government and learn about the major issues affecting women's civic status and public leadership. Additionally, some programs offer current

perspectives on research or public affairs, applied skill workshops, or the opportunity to participate in community events. Special thanks to all faculty who volunteer their time as presenters, along with the following programs for contributing programs to the calendar: Center for Women's Entrepreneurship (CWE), Global Focus (GF), and Student Activities (SA).

PENNSYLVANIA
